

# Environmental Policy Statement

At Corserv, we are committed to protecting and enhancing the environment for current and future generations, delivering lasting positive outcomes for the communities we serve.

To manage the environmental aspects, impacts, and opportunities of our business activities responsibly and effectively, we operate a comprehensive Environmental Management System (EMS) aligned with the international standard ISO 14001 and founded on the principle of continual improvement.

Strong environmental stewardship is central to our [Sustainability Strategy](#) and the long-term value we create for our stakeholders. Our approach is guided by the following ten strategic objectives:

	<p>1. Prevent or minimise adverse environmental impacts from our operational activities</p>		<p>6. Minimise waste and support circular economies by reducing, reusing, and recycling</p>
	<p>2. Comply with all applicable legislation, standards, and regulatory requirements</p>		<p>7. Promote a culture of environmental responsibility through awareness, training, and engagement</p>
	<p>3. Support nature recovery by protecting, enhancing, and restoring green spaces</p>		<p>8. Collaborate with others to identify innovative solutions and deliver positive outcomes</p>
	<p>4. Save energy, reduce carbon emissions, and prepare for climate change impacts</p>		<p>9. Measure, monitor, and review performance to track progress and guide decision-making</p>
	<p>5. Ensure the goods and services we purchase are sourced and used responsibly</p>		<p>10. Continually improve our performance and positively influence others to do the same</p>

This policy applies to all individuals working on behalf of Corserv, including contractors, and is reviewed annually by our leadership team to ensure its continued suitability, effectiveness, and strategic alignment.

Neil Edmond - Chief Executive Officer (CEO)
